

SIMSON

Mokick S51 Enduro

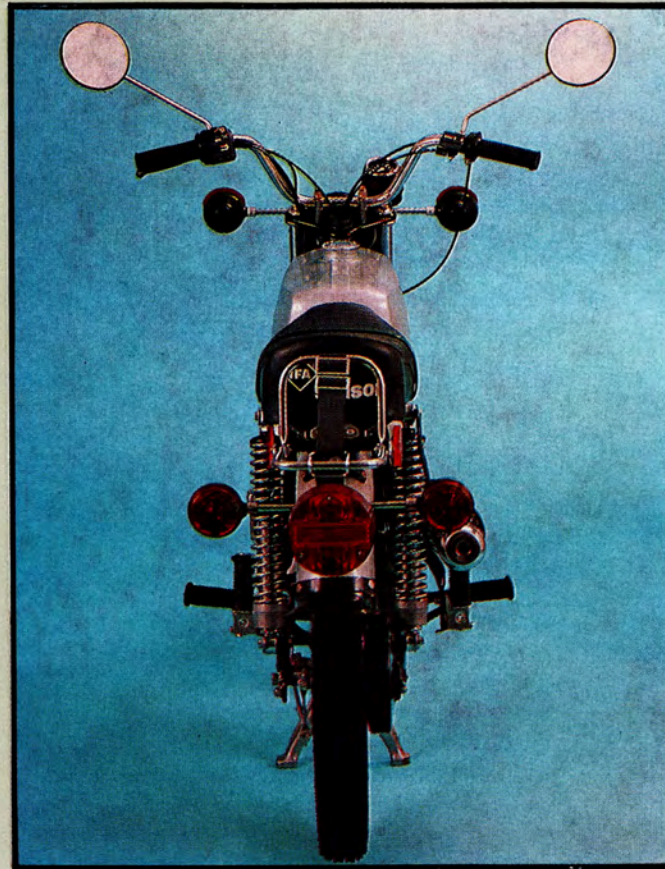

IFA mobile-DDR

Modern sporting style and elegance in combination with the technical perfection in the line of Simson's minibikes engineering – a successful synthesis realized in this top-class sports formula within model series "S 51".
Apart from everyday on the road riding, this small sports bike

offers the chance of sports activities in cross-country running. Robust frame trussing, competition-type handlebars, upswept exhaust system with heat-protection, stable road wheels and mudguards to the purpose – all these are well-tried features of its outward appearance.

Hydraulically damped rear shock absorbers with adjustable spring preload and the long stroke telescope fork with hydraulically cushioned limit stop in addition to the non-skid studded tyres will ensure a really bear-hug roadholding in all driving situations.

Specifications

Engine:	50 cm ³ two-stroke engine with 4-speed gear driving-key type transmission
Cubic capacity:	49,8 cm ³
Maximum performance:	2,72 kW (3,7 H.P.) at 5.500 rpm
Lubrication:	fuel-oil mixture 50:1
Clutch:	four-plate disc clutch with Belleville spring, running in oil bath
Springing	
front wheel:	telescope fork with max. spring deflection of 130 mm
rear wheel:	swing-arm with double-adjustable telescopic legs, spring deflection 90 mm
Ignition system:	35/21 W electronic igniter ¹⁾
Direction indicator system:	4 flashing lights 21 W per lamp
Battery:	6 V/12 Ah lead storage battery
Road fuel consumption:	2,3–2,5 l/100 km
Tank capacity:	8,7 l
Deadweight:	84 kg
Payload:	176 kg
Maximum speed:	60 km/h

Modifications of construction reserved without notice!

¹⁾ Type variant "S 51 E-1" equipped with primary igniter
